

# Mehrab Esmailnia

## Web Developer

I am a full-stack web developer with expertise in front-end technologies such as HTML, CSS, and Vue.js, as well as back-end technologies like PHP and MySQL. I utilize the Laravel framework for web development. I am also enthusiastic about developing websites using front-end frameworks like Nuxt 3. Additionally, I also possess experience in SEO. My motivation lies in continually learning and staying updated with the latest technologies to create excellent user experiences and modern websites.
